What is the correct order to close JDBC resources in a finally block?

Pick **ONE** option

13

 Connection, Statement, ResultSet

14

 ResultSet, Statement, Connection

15

 Statement, Connection, ResultSet

16

 It doesn't matter, any order is fine.

What will be the output?

```
import java.util.Map;
import java.util.HashMap;
public class Test{
    public static void main(String args[]){
        Map m = new HashMap();
        m.put(null, "Test");
        m.put(null, "Fest");
        System.out.println(m);
    }
}
```

Pick **ONE** option

{null=Fest}

{null=Test}

compilation error at 7 and 8
